ORIGINAL PRACTICE FILE

Scanned PDF practice

This synthetic fixture contains text pages and image-only table pages.

All records are fictional; the file is intended for publication and reuse.

Test search or extraction per page. Do not assume the cover represents the file.

EXERCISE NOTES

Before you extract

Preserve item codes as text. Leading zeroes are part of the identifiers.

The scanned table spans two pages with repeated column headings.

No supplier phone number is given in this practice file.

FIELD NOTES

What to compare

Separate the displayed file position from the number printed on a page.

A correct link should open the page that actually supports the answer.

The exercise does not rate the performance of any OCR or chat product.

END OF PRACTICE FILE

Check the result

Confirm row counts, identifiers, and decimals before using an export.

Record what the file actually says. Leave unsupported answers blank.
